1 Question 1

"Where did all my money go?"

YOUR APP HELPS THEM

See what they spent, and what's left.

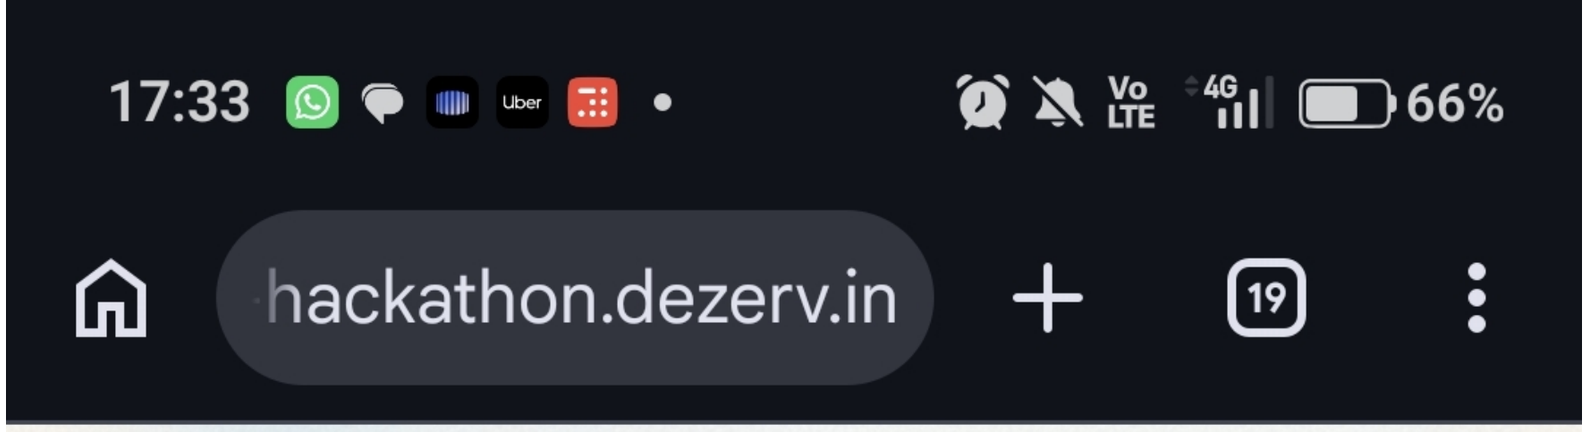

For example: show ₹500 as 25 samosas, not a number.

2 Question 2

"How do I save for that cycle?"

"How do I save for that cycle?"

YOUR APP HELPS THEM

Set a goal and watch themselves get closer.

For example: "this ice cream pushes your cycle back 3 days."

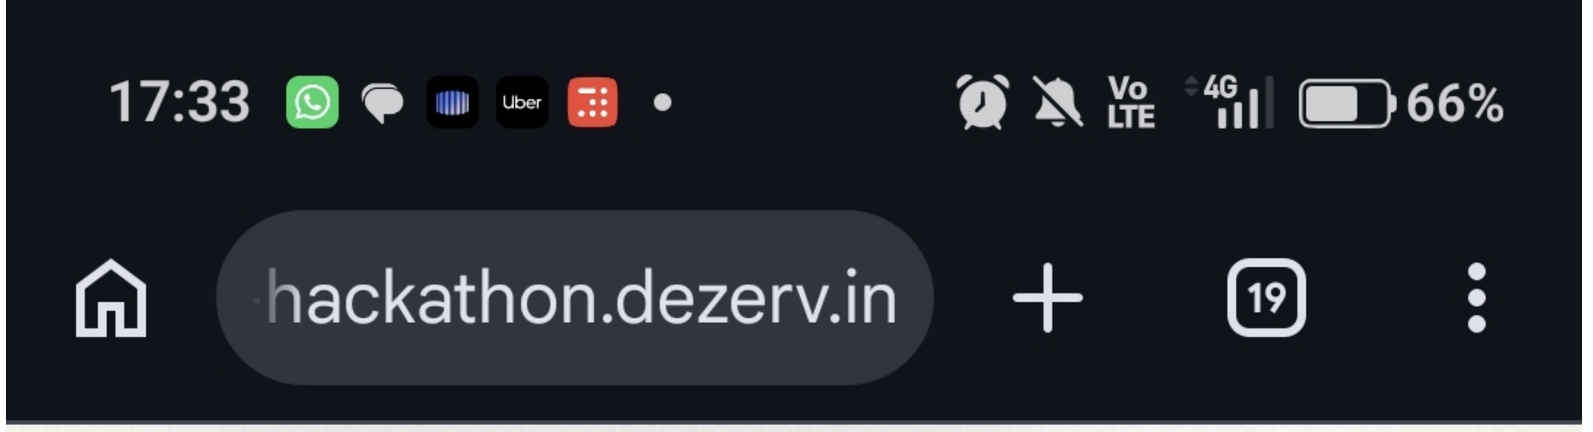

3 Question 3

"Can I buy this, Mum?"

YOUR APP HELPS THEM

Decide about money together with their parents.

+ Out-of-the-box thinking

"What if money worked like...?"

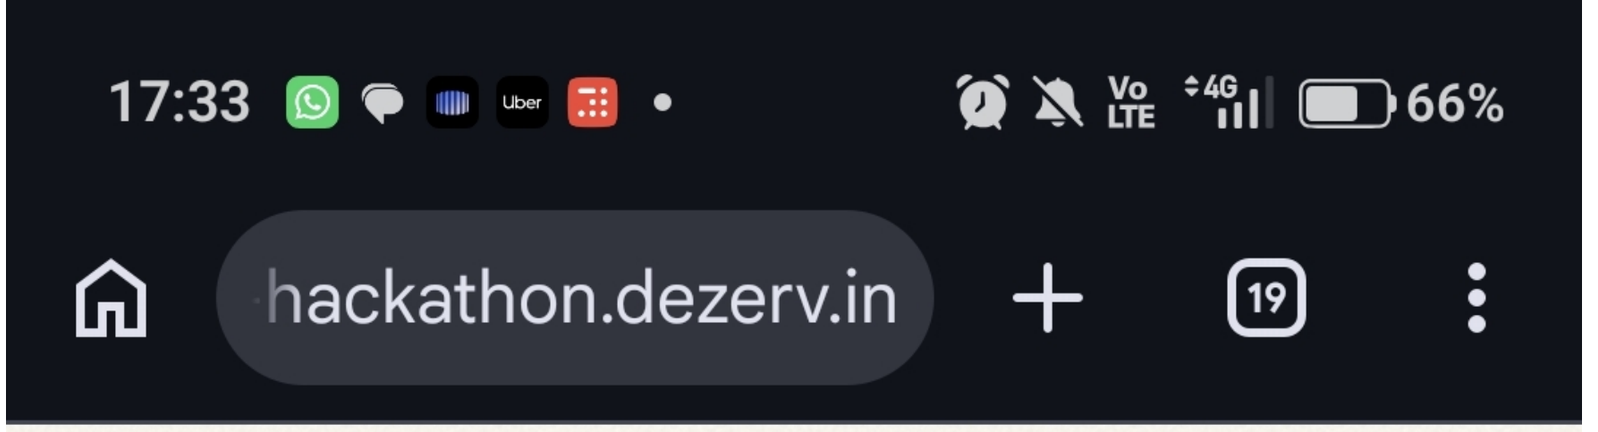

SURPRISE US

Think out of the box. Any fresh idea that helps kids with money is welcome.

For example: a money game, a savings challenge with friends, or something nobody has built yet.

FAQ

Register now

Yes. App builders, no-code tools and AI can all make a web app without code. Use whatever works for you.

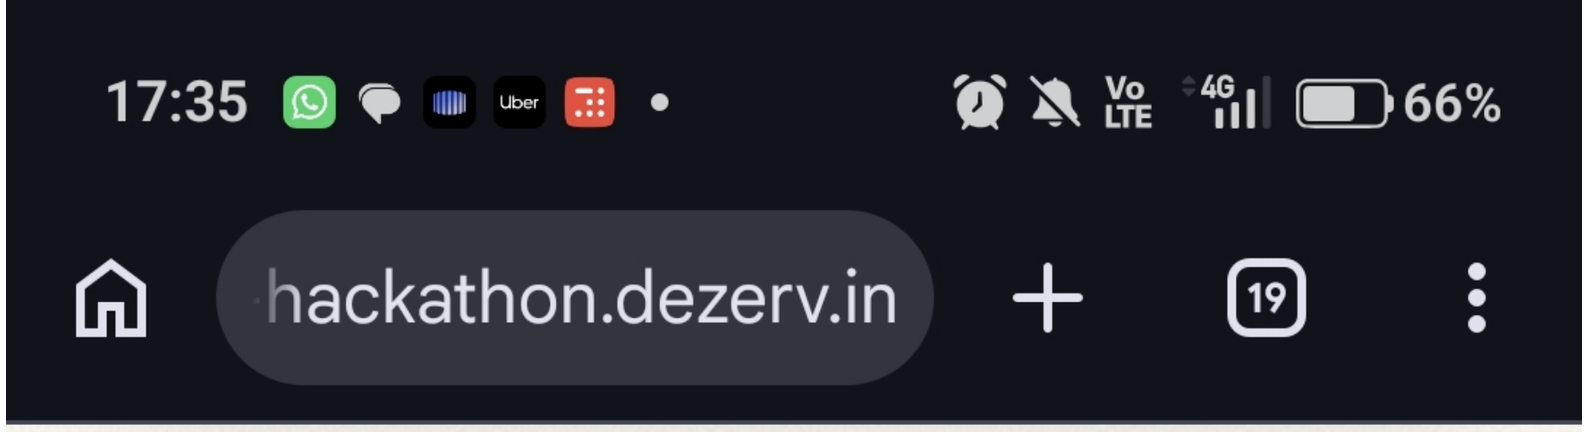

What counts as a "web app"?

Anything that opens from a link in a browser, on a phone or laptop, and works when someone clicks around. Apps that need installing don't count.

Does it have to answer all 3 questions?

Yes. Every entry answers all 3 questions in one app, for Juniors and Seniors alike. You can also add an out-of-the-box idea on top. Each group is judged against its own age.

DEZERV FAQ Register now

Can I use a template or follow a tutorial?

Yes, tools and tutorials are fine. The idea, the design and the decisions in your app should be your own.

Can I keep improving my app after I submit?

Judges look at the version you submit by 10 November, 11:59 PM IST. Please don't change the app link after that.
